

Helpful Hints for safety on Lyndeborough Roads:

- If you see signs indicating road closed for thru traffic, this means that some part of this road has been closed. If you live on this road exercise caution and be prepared to stop and or reverse direction. If you are passing through please seek an alternate route.
- If you see evidence of the grader on the road you are traveling, please try to go around when it is safe to do so. The grader operator cannot see behind the machine and is unable to stop the grading process quickly.

Thank you for your cooperation,
Kent Perry, Road Agent
